CRESCENT INTERNATIONAL WHITECORE MATBOARD SPECIFIER

Components:

- Decorative facing papers
- Stay-white core
- Surface, core & backing paper buffered with calcium carbonate to alkaline reserve of 3 - 5%

Recommended for:

- Decorative framing and general presentations
- Open end reproductions
- Posters and decorative art

Take advantage of a palette of over 100 vivid colors and luxurious textures that provides unparalleled creative and design flexibility.

Our premium fabric surfaces feature solid whitecore, and are available in 13 popular colors, with a richness and depth that is unmatched. Great for nature photography, sports memorabilia, shadow boxes, and for traditional and contemporary décor.

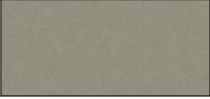

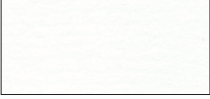

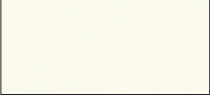

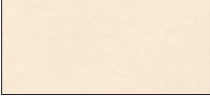

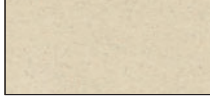

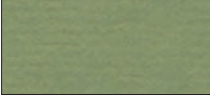

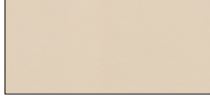

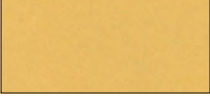

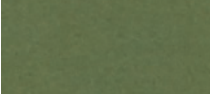

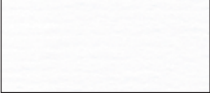

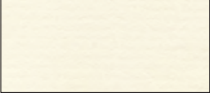

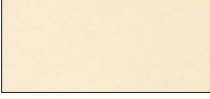

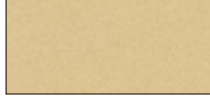

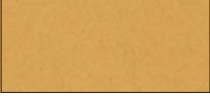

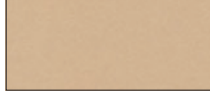

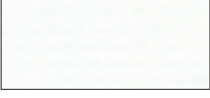

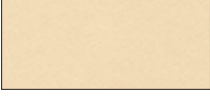

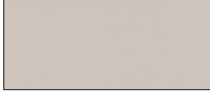

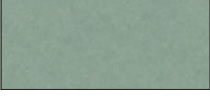

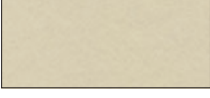

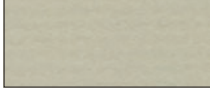

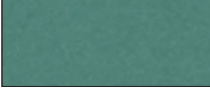

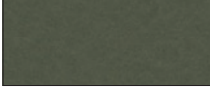

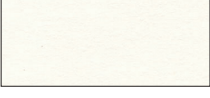

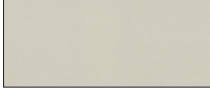

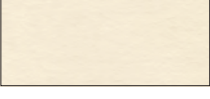

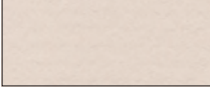

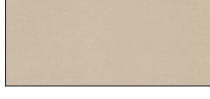

International Whitecore with a purpose: The bright white core material used on these products is comprised of wood pulp that is buffered with calcium carbonate to be pH neutral. Additionally, the surface papers used on all our International Whitecore matboards are produced out of 100% virgin fiber.

We make sure we source the materials from responsible mills that harvest trees in an ecologically friendly and sustainable fashion. Therefore no environmentally sensitive rainforests or old growth forests are logged, and a tree is planted for every tree consumed.
