Ready to inspire

Peterboro opened its first manufacturing facility in 1902 where it began to produce several new products. Almost overnight, the demand for photo mounts exploded in response to the recent invention of the Kodak Brownie camera. During this same period, the movie industry became popular and Peterboro supplied laminated sheets that were used to display movie posters in theater lobbies. As cities grew in the early 1900's, large department stores appeared. Peterboro was there to supply a growing need for signage boards and price cards.

Today Peterboro manufactures a full line of illustration boards used by artists, architects, and students as well as our flagship product - matboards. Peterboro Matboards is one of only a handful of companies worldwide, that possess the equipment, knowledge, experience, and technology to make a full line of quality matboard products.

Since the beginning, Peterboro Matboards has proudly remained a family owned and operated business with a strong foundation of exceptional customer service.

Alan Yaffe
President & CEO, Peterboro Matboards
